Skills

- **Languages:** JavaScript, TypeScript, Java (Collections Framework), SQL, HTML/CSS
- **Frontend:** React, Astro, Redux, Context API, TanStack Query, React Router, Tailwind CSS, MUI, Ant Design
- **Backend & Databases:** Express.js, Node.js, PostgreSQL, Prisma ORM, Passport.js, Express Validator, Zod
- **Tools & Testing:** Git, Bash, Vite, Webpack, ESLint, Prettier, Jest, Vitest

Experience

Frontend Developer Intern (Promoted to Team Lead)

Nov 2025 – May 2026

Consint Solutions Private Limited

- **Built and maintained** the core Preauth and Claims modules for the HITPA portal, processing **~60 million claims** for **1,000+ employees** using **React** and **TanStack Query**.
- **Earned a merit-based promotion to Frontend Team Lead** within 5 months; supervised a developer team, conducted code reviews, and owned the end-to-end delivery of the portal's most critical modules.
- **Reduced codebase size by 40%** by refactoring repetitive structures into modular, reusable UI components and implementing dynamic routing strategies.
- **Resolved 300+ complex bugs**, tackling high-priority issues like race conditions in claim generation and architecting dynamic, shared **Zod validation schemas**.
- **Appointed as Repository Maintainer** after standardizing the team's **Git workflow**; synced 4 fragmented release branches and introduced atomic commits to eliminate recurring merge conflicts.
- **Collaborated directly with clients** in person to translate business requirements into technical specs and implement rapid feedback resolutions.

Open Source Contribution

PRs: [#10286](#), [#10088](#), [#10235](#)

openSUSE - Uyuni repository

- **Modernized a legacy Java codebase** by resolving SonarCloud-reported vulnerabilities, refactoring deprecated raw types, and improving type safety across the repository.

Projects

CVmaker

[GitHub: CVmaker](#)

- **Developed an ATS-optimized** resume builder using **React** and **Vite** with a modular architecture.
- Implemented **real-time preview** synchronization and a seamless **PDF generation system**.
- Designed a **responsive dual-view layout** using **Tailwind CSS** for optimized desktop and mobile UX.

Battleship Game

[GitHub: Battleship](#)

- Architected a **modular, loosely-coupled** Battleship game with clean **separation of concerns**.
- Applied **Test-Driven Development (TDD)** to ensure reliability and maintainability.
- **Designed a smart AI opponent**, significantly enhancing gameplay difficulty and user engagement.

Achievements

- Achieved a **Codeforces Rating of 1200+**, earning the rank of **Pupil**.
- Achieved a **LeetCode Rating of 1800+**, ranked in the **top 7% globally**.
- Solved **750+ problems** on LeetCode across **data structures and algorithms**.

Education

B.Tech, Computer Science and Design - GCET, AKTU: **80.4%**

2022–2026
